

First time starting in a sailboat race?

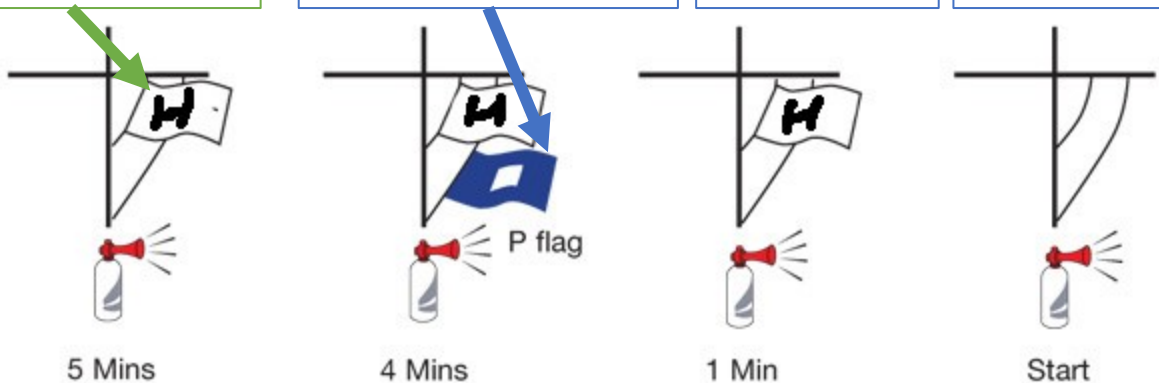

Here are what the flags mean

This would be your class flag from the list below, flags are raised or lowered when there is a certain amount of time before your start.

This is the P flag, it means 4 minutes until your start! Note that your class flag and the P flag are up at the same time

The P flag is lowered, 1 minute until your start- Get to the line!

Your flag has been lowered and you are now racing! Get over that line and follow the course!
